Sep 2000 - Jun 2002

## HI THERE

My name is Phil and I love the web. I am hardworking and enthusiastic, as well as being a keen and fast learner. I enjoy a challenge and can work well both in groups and on my own. My ideal job would see me working on both website design and front end development, though I feel I am able enough to specialise in either.

## SKILLSET

Photoshop	★★★★	XHTML	★★★★★
Illustrator	★★★★	CSS	★★★★★
Dreamweaver	★★★★★	Javascript	★★
Flash	★★	PHP	★
MS Office	★★★★★		

## RELEVANT WORK EXPERIENCE

### *Yuglie Design - Freelance Web Designer*

I capitalised on my spare time during my degree, working under my own brand. I worked on various websites including brochure-style, content-managed, blog and e-commerce sites. I liaised with clients throughout the project and often arranged maintenance contracts.

### *Sir Robert McAlpine - Web Coordinator*

During my gap year I worked in the Marketing Department of a construction company. I was responsible for all internal graphic design, advertisements and ongoing maintenance of the company website.
